A new document for an FRS document only clarification was distributed with the other documents regarding system tunables and the maximum duration a user may continuously use a Cross-Regional GUI session. No objections to the clarification were raised and it was assigned NANC 490 to be prepped for the Change Order documentation to be covered in the May meeting. Neustar is expected to deliver additional Change Order documents for the May LNPA WG meeting to address other APT items that were discussed in March. Where some of the matching test cases were not fully updated, new updates will go into the new Change Order. iconectiv stated they were comfortable with what was done for NANC 485.

The LNPA WG portion of the conference call was adjourned at 10:17a.m. EDT.
