

**The overall objective is to make vendor Interoperability Testing (ITP) more efficient and effective by improving quality and controlling costs. In order to do so, we will determine the needs of ITP testing from the point of view of:**

- NPAC Vendor**
- SOA and LSMS Vendors**
- Service Providers**
  - Introductions/Agenda Review – All**
  - Review and Approve February 8, 2011 APT Minutes – All**
  - Overview and Review of Vendor and Service Provider Test Plans – All**
