LNPA WORKING GROUP CONFERENCE CALL MINUTES:

Introductions and LNPA WG Agenda Review

The sole agenda item for the February LNPA Working Group conference call was to review the Non-Geographic Number Porting (NGNP) Subcommittee draft white paper concerning non-geographic telephone number porting.

Neustar provided a WebEx bridge to allow all conference call participants to view the document as it was reviewed and edited. The goal was to produce a final document by the end of the call.

Review and Discussion of the LNPA WG DRAFT White Paper on Non-Geographic Number Portability

Teresa Patton led a paragraph by paragraph discussion of the draft white paper. As changes were offered and agreed to by participants, Deb Tucker updated the document in real time. The final document is embedded here:

The LNPA Working Group reached consensus to accept this document as final. It will be forwarded to the NANC prior to their meeting on March 5.

The Working Group desires that this document be placed on the NPAC website for future availability and reference. Gary Sacra will research and recommend a location on the website at the March LNPA WG meeting.
