Action Item 050713-02: Service providers are to be prepared to state their company positions on the **June 17, 2013, conference call** as to whether or not new service providers should be required to do turn up testing themselves (or through a surrogate) even though the same test plan will be used that the vendors used to do their testing. And if the vendor that does the vendor testing is also the surrogate for the service provider, does the test have to be repeated?
