

**LNPA Working Group Meeting Schedule
May 13 - 14, 2014**

**Hosted by Neustar
Marriott South Beach
161 Ocean Drive
Miami Beach, FL 33139**

Agenda

LNPA Working Group (LNPA WG)

Tuesday, May 13, 2014 9:00 AM – 5:00 PM (Eastern Time Zone)

Conference Bridge – 866-783-4160 PIN 23272#

9:00 a.m. **Introductions and LNPA WG Agenda Review – All**

March 4-5, 2014 Draft LNPA WG Minutes - All

Issues from Other Industry Groups:

- **OBF Wireless Service Ordering Subcommittee – Deb Tucker**
- **OBF Local Service Ordering Subcommittee – Linda Peterman**
- **INC Update – Dave Garner**
- **NANC Future of Numbering WG Update – Suzanne Addington**

10:00 a.m. **Change Management – Neustar**

Discussion of Other Change Orders – All

(DOCUMENTATION WILL BE DISTRIBUTED SEPARATELY)

Discussion of Alternative Interface (NANC Change Order 372) – All

Review and Discuss changes requested to the FRS, XIS and XML Schema at the September 2013 LNPA WG Meeting.

(DOCUMENTATION WILL BE DISTRIBUTED SEPARATELY)

11:30 – 1:00 Lunch

LNPA Working Group Meeting Schedule
May 13 - 14, 2014

Hosted by Neustar
Marriott South Beach
161 Ocean Drive
Miami Beach, FL 33139

Agenda

LNPA Working Group (LNPA WG)

Tuesday, May 13, 2014 9:00 AM – 5:00 PM (Eastern Time Zone)

Conference Bridge – **866-783-4160 PIN 23272#**

1:00 p.m. Change Management – Cont'd

Discussion of Alternative Interface (NANC Change Order 372) – All

Review and Discuss changes requested to the FRS, XIS and XML Schema at the September 2013 LNPA WG Meeting.

Discussion of industry testing.

010714-02 REVISED – Service Providers and Vendors should review the M&P for certificate-related activities in the NPAC XML interface. The M&P can be found on the NPAC secure web site at the following URL:

<https://www.npac.com/npac-user/access-connectivity/npac-xml-certificate-trust-authority>

Additionally, section 3.3 (NPAC Use of Certificates) in the XIS describe how this works from an application perspective.

Reviewers should consult with their information security teams to make sure these procedures are acceptable. In the current process, the User supplies basic information to the NPAC Certificate Authority (CA) via email. This basic information makes up the distinguished name of the certificate, and includes the SPID, region and system type. The NPAC CA creates a User within the system for this request, and the requestor receives the logon URL and the login credentials in separate emails. Upon login, JavaScript code is downloaded to the User's web browser. This JavaScript code calls APIs within the User's browser to generate a public/private key pair. The public portion of this key pair is then sent to the NPAC CA. The NPAC CA combines this public key with the information associated with the User to generate a signed certificate that includes the public key and the distinguished name information (the spid, the region, and the system type). This signed certificate is then downloaded to the User's machine, where it is combined with the private key. The private key is generated on the User's machine and is never transmitted to the NPAC CA.

**LNPA Working Group Meeting Schedule

Agenda

LNPA Working Group (LNPA WG)

Tuesday, May 13, 2014 9:00 AM – 5:00 PM (Eastern Time Zone)

Conference Bridge – 866-783-4160 PIN 23272#

3:00 p.m. Determine what NPAC Functionality should be considered for sunseting – Neustar

010714-04 – WG members are to be prepared to continue discussion of the potential sun-set list at the March 2014 LNPA WG meeting. WG will discuss benefit and need for each item on the list including level of effort for keeping or removing.

LNPA WG – Potential Sunset List

LNPA WG Agenda Item – Determine what NPAC Functions

030414-01 – Sunset list 3.2 – Require Query “More” SVs

In R3.3 (Feb 2006), the NPAC implemented NANC 285, the enhanced SV Query capability. Similar to the LTI with the “more SVs” button, NANC 285 added a “more” capability to the CMIP SV Query. For SOAs/LSMSs that do not support the “more” capability, SV Query functionality is limited. This functionality is still optional in the XML interface. Sunset of this feature would make it required for both interfaces. Neustar to investigate how often this error of queries exceeding the 150 SV returned limit occurs.

030414-02 – Sunset list 9.3 Remove unused Billing categories (like mass storage, audits, etc.)

Neustar to provide a list of the billing data and billing reports.

030414-03 – Neustar to update the Sunset list based on March discussion and resend.

Remove the items that the WG has decided not to sunset and remove items that already have a change order to remove.

5:00 p.m. Adjourn LNPA WG Meeting

**LNPA Working Group Meeting Schedule
May 13 - 14, 2014**

**Hosted by Neustar
Marriott South Beach
161 Ocean Drive
Miami Beach, FL 33139**

Agenda

LNPA Working Group (LNPA WG)

Wednesday, May 14, 2014 9:00 AM – 5:00 PM (Eastern Time Zone)

Conference Bridge – 866-783-4160 PIN 23272#

1:00 p.m. Discussion IP Transition effects on Number Portability Cont'd

3:00 p.m. Review of 2014 LNPA WG Meeting/Call Schedule – All

2014 Meetings and Conference Calls

3:15 p.m. Discussion of 2014 Meeting/Call Agenda Items – All

BRAINSTORMING OF POSSIBLE FUTURE
LNPA WG AGENDA ITEMS

3:30 p.m. Unfinished/New Business – All

Discussion of Need for June 10, 2014 LNPA WG Call - All

Action Items Not Previously Discussed in Agenda

Develop LNPA WG Report to NANC – NANC Meeting June 17, 2014

5:00 p.m. **Adjourn LNPA WG Meeting**

Next LNPA WG Conference Call ... June 10, 2014 (If Necessary)

Next Meeting ...–July 8-9 2014: Portland, Oregon
