9:00 a.m. **Introductions and LNPA WG Agenda Review - All**

9:05 a.m. **IP Transition effects on Number Portability – All**

- **Non-geographic Porting Sub-Team Readout**
- **JSI Suggested Discussion Points for September 2014 LNPA WG Meeting**
 - ✓ What are the pros and cons of the NNI's idea of mapping an individual TN to SBC IP addresses via a SIP URI in the NPAC SV? The LNPA WG should review the NNI's idea and discuss the required NPAC changes to determine if it is an idea the LNPA WG will support and forward for NANC,
 - ✓ Now that we understand VoIP, IP interconnection possibilities, ENUM and the IP transition impacts on LNP ---- What's the LNPA WG's (and the overall industry's) next step? Discuss how the transition will impact LNP, identify issues and determine potential resolutions.
 - ✓ Discuss how the transition will impact LNP, identify issues and determine potential resolutions
 - ✓ Discuss the ramifications of using the NPAC to support LNP in an all-IP network versus construction of a new NPAC database strictly for LNP in an all -IP network.
- If day 2 of the WG meetings continues to specifically focus on the impacts of the PSTN to IP Transition on LNP, we do not have a sufficient, cohesive list of topics to be discussed. Should we move the non-geographic number portability topic back into the entire LNPA WG rather than utilizing the sub-team to address the topic?
