AREA CODE OVERLAY

11:00 a.m. SPID Migration Limits – Increase Regional, TN Threshold – All

Limits on SPID migrations are based on TNs. With the elimination of non-EDR, should the definition be changed to some other parameter? Could change to the sum of the ported TNs and pooled blocks. Could we change to this sum being 500K as we were using this as the max number of TNs?

The LNPA WG agrees in concept. John Nakamura will prepare language for review at the September 2-13 LNPA WG meeting.
